Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
We were talking about several ideas which we already had in Zagreb. This time we were only two delegations. Finland doesn't participate in this meeting. If we will make a models of European countries, we have respect scales between countries. So we decided that the easier way is to make same size of panel for every country. In the end we have this ideas: • same size of panel for every country • Plexiglas panels with engraved borderlines, enlightened by LEDs • Plexiglas map in lifted position from the floor in order to put neonlights underneath • initialization by switches on the tracks-panel light up, panels in alphabetical order of the countries • video presentation of each country
