Meeting Description	Fifth Project Meeting in St. Pölten (Austria)
Meeting hosted by	Höhere Technische Bundeslehr- und Versuchsanstalt

Date / Time / Place	Thursday, 31st January 2013, School, Room No. P437
Name of Workline	Workline C – European Electronic Map
Name of Workgroup	Desk

Representative workgroup member	[IE] John O ´Neill
Co-representative workgroup member	[SE] Mattias Mella
Co-representative workgroup member	[SK] Ľudovít Iván

Further workgroup members	[IS] Ellent Daneliussom
	[AT] Harald Falschlunger
	[SK] Juraj Záhradníček
	[SK] Martin Bebjak

Minute written by	[SK] Eva Kantoráková

Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
Group from Sweden brought the desk. Group from Slovakia brought the stand. Group from Ireland brought the frame. We have discussed where to fix frames and how to fix them. Possibility of fixing with glue and where to fix it depends on the size of all puzzle map. We will fix the desk to the stand in the shape of the letter Z. We decided we will have a fixed angle. There will be two aluminium "spider legs" which will hold the fixed angle. The angle of the desk will be fixed at 20°. We will need 3 screws to fix the back frame from the bottom. It is overhanging by 5 mm deep. Slovakia must do the spider legs triangle and bring it to Bad Kreuznach. It should be drilled and threaded for fixing to the bottom of the desk. Assembling these should take only 15 – 20mins.

Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
Friday was a "hard working meeting" because we decided to fix the frame to the desk. There were enough puzzle pieces to get the correct position of the frame. It was also very good to have the use of Bernd Gutmann's workshop. It is well equipped and organised. We spent the entire meeting time getting the frame positioned correctly and the holes drilled with teachers and students from different countries working in cooperation. Even so, there was not enough time to complete the task. *Students working and Teachers watching!*	

Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
Extra time was needed on Saturday morning to finish the job. So, Mattias [SE] and Ellert [IS] volunteered to return to the school at 8am on Saturday to have it ready for the presentation and meeting later that day. At the presentation we explained about the redesigned mounting for the stand and showed how the Panel and Desk might look. Because so many puzzle pieces were not available it was difficult to see how the final arrangement would appear. Later at our "Further Steps" meeting we met with the Panel Group and agreed the tasks that would ensure the whole assembly would be ready for Bad Kreuznach. • Panel and Desk to stay in St. Polten and brought to Bad K • Missing & incorrect Puzzle Pieces to be posted to St. Polten. • Redesigned bracket to be made and brought to Bad K • Finishing (threads, etc) of Puzzle Pieces to be done in HTL. • Holes to be drilled for wires in HTL. • LEDs to be fitted to Puzzle Pieces. 	DEADLINE 28/02/2013 [SK] [AT-STP] [AT-STP] [AT-STP]
