<b>Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance</b>	<b>Responsible school(s) or person(s) incl. deadlines</b>
<p>Trouble shooting.</p> <p>This meeting is for solving problems with uploading files, installing the program, find a drawing, etc.</p> <p>We helped two persons who wants to know when you have to make a new folder and what kind of programs are necessary.</p> <p>There were also questions about the extensions.</p> <p>A small explanation:</p> <ol style="list-style-type: none"> <li>1) The model is the leading part. If the model has been changed make a new folder.</li> <li>2) In the folder will all drawings, pictures and programme's stored what have been used.</li> <li>3) Use for the drawing always a PDF file: everyone can read it.</li> <li>4) What kind of drawing ore what CNC program you use is not important. Store it in de folder.</li> </ol> <p>Sending an E-mail whit the responsible persons.</p>	<p>T. van Dongen [NL], done</p>
