Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
<p>We assembled on the technical school “TESLA”, in Zagreb, with our group which comprised us (4 persons), Germany (8 persons), and Hungary (5 persons).</p>  <p>The group aimed the discussion of ideas and opinions for the “Workline C”, which was the “European Electronic Map”. During that working hour, several elements from all groups gave their ideas; hence all the help was truly welcomed.</p> <p>The first idea was Jörn’s (DE) who meant to surround the shape of Europe; the second idea came from Viviane’s (HU) who wanted to place countries encircling the EU symbol; Lukas’ and Elmar’s (DE) idea was to interconnect each country to the railway engine and to the “wagons”, the fifth idea was Lars and he said that an activate button interconnect the “wagons” and map, and Bruno (PT) in the fifth idea conveyed that a button could start the “Wagons” and the “Map” which were interlinked ; interactive LED’S shaped the Map.</p> <p>This meeting was pretty interesting and we could manage to get some starting ideas. Representing the group was Jörn Haas (DE) and the two co-representatives were Rui Alves (PT) and László Nagy (HU).</p>
