--------------------------	---------------------

<b>Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance</b>	<b>Responsible school(s) or person(s) incl. deadlines</b>
<p>4) Visions and idea's...</p> <p>4a) Map....CNC-manufacturing (proposal)</p> <ul style="list-style-type: none"> <li>- all countries will be a separate puzzle in big Europe</li> <li>- the dimensions of the puzzle pieces must be nearly the same</li> <li>- bigger countries can make the same pieces for the inner parts (not for the border pieces)</li> <li>- we can use aluminium, wood or plastic (clear or not clear for the effect)</li> <li>- under the puzzle a wooden or rollup map for the electronic equipment.</li> <li>- proposal for display</li> <li>- one LED for the capital city</li> <li>- when we use plastic ...the signs (BE or SK) or more LEDs inside the country (see picture with this minute form)</li> <li>- on display – LCD with a message in the language from the country</li> </ul> <p>4b) Electronic proposal</p> <ul style="list-style-type: none"> <li>- RC5</li> <li>- Lcd screen</li> <li>- 1 receiver</li> <li>- Land design</li> <li>- Solar tracker and Solar panels to power the map</li> </ul>	

<b>Description of work progress:  Topics / Tasks / Results / Decisions / Facts of importance</b>	<b>Responsible school(s) or  person(s) incl. deadlines</b>
<p>5) We suggest that one group takes the responsibility to make a drawing with a proposal</p> <p>6) We propose two working groups – one for the map and one for the electronics (schools that have an electronics department)</p> <p>Conclusion:</p> <p>Europe is one big puzzle in plexy glass, the different countries are lit with LEDs showing the abbreviation for each country (e.g. SK or BE), or more LEDs to light up the whole country.</p>
